Parkhurst, the Boston publisher, says that if any one afflicted with rheumatism in any form, neuralgia or kidney trouble will send their address to him at 704-81 Carney building, Boston, Mass., he will direct them to a perfect cure. He has no interest in anything to sell, only a desire to tell those afflicted how he was cured after years of search for relief. Hundreds have tested it with success.—adv.

BOTH MOTIONS DENIED.

Judge Curtis Does Not Set Aside Non-Suit in Jewett City Case or Verdict in New London Case.

Two decisions were received by Chief Parsons of the superior court on Tuesday.

In the case of Mary O'Brien, admx., vs. the Aspinbrook Co., in which a non-suit was granted, and in which a motion was argued to have the non-suit set aside, a decision refusing the motion has been given.

Judge Curtis in his memorandum stated that he had considered the questions involved and believes that the motion was justly granted.

In the case of Miss Polachnevska vs. the Hopson & Chapin Mfg. Co., in which a verdict for \$5,500 was given on the plaintiff's motion to set aside the verdict and grant a new trial on the ground that the verdict was against the evidence, Judge Curtis has decided in favor of the plaintiff and denies the motion.

He says: I don't think the amount awarded over-compensates this man for the wages lost, the loss of his trade and the life-long discomfort of this unsightly hole in his face and the use of such a glass eye as can be used. I think, without the suspicion of being influenced by corruption, prejudice or partiality, the jury could have rendered this verdict.

INSANE HOSPITAL TRUSTEES MEET

Quarterly Reports Heard and Recommendations Adopted—Those who Get the Meals and What is Consumed Each Month at Institution.

The quarterly meeting of the board of trustees of the Norwich hospital for the insane was held at the institution on Tuesday with the enactment of routine business and the approval of a number of recommendations by Supt. Dr. H. M. Pollock. The members of the board arrived during the afternoon from one o'clock until four o'clock, when the meeting was held with the following present: Edwin S. Greeley, New Haven; E. C. Pinney, Stafford; Eugene Burr, Middletown; Frederick E. Wilcox, Williamsville; P. Leroy Harwood, New London; Edward Hollowell, Preston; Constable Lippitt, H. H. Gallup, Dr. C. E. Stark, and Dr. H. M. Pollock, Norwich.

There were reports of the visiting committee for the past three months and the transaction of the routine business. The report of Superintendent Pollock was read, including the following: The hospital, which has a large institution built up in the past few years it is interesting to note the amount of foodstuffs needed and used at the hospital every month. The following figures will give some idea of the quantity required: Sixty barrels of flour, 1,500 pounds of granulated sugar, 230 pounds of coffee, 1,405 of cabbage, 450 of potatoes, 430 of peas, 300 of apples, 300 of oatmeal, 150 yellow meal, 175 of saffron, 245 of rice, 400 of evaporated apples, 41 of yeast, 50 of beef, 532 of pork, 687 of fowl, 4,587 of beef, 432 of liver, 157 of sausages, 420 of bologna, 444 of frankfurters, 75 of macaroni, 20 of apples, 300 dozen of eggs, 55 gallons of molasses, 21 gallons of syrup, 91 bushels of turnips, 20 of beets, 14 of carrots, 14 of celery, 14 of hard squash, 20 barrels of cranberries, 14 bushels of carrots, 20 barrels of sweet potatoes, 500 pounds of fish and 6,024 quarts of milk.

This gives an idea of the large quantities of provisions needed for a single month while there are many more of which small quantities are used. Some of the provisions can be raised on the farm connected with the institution, but not enough to supply it so that much has to be purchased and Norwich gets a big trade from there.

ing some recommendations, which were acted upon. These were regarding minor matters about the institution. Adjournment was then taken for dinner. The rest of the day was spent in the kitchen, as his guests were Messrs. Greeley, Pinney, and Burr of the board of trustees. The administration building is not yet ready for occupancy, although it will be within a short time. The furnishings are yet to be installed and are expected very soon. At the colony building the work is about completed and Ward D has been entirely enclosed. Men are at work putting on the metal lath, the doors and windows are being hung and the plastering will soon be started.

There are now at the hospital 47 patients, making a large family to be cared for and necessarily much work in the various departments. Accompanying in a view of the more of which small quantities are used. Some of the provisions can be raised on the farm connected with the institution, but not enough to supply it so that much has to be purchased and Norwich gets a big trade from there.

There are now at the hospital 47 patients, making a large family to be cared for and necessarily much work in the various departments. Accompanying in a view of the more of which small quantities are used. Some of the provisions can be raised on the farm connected with the institution, but not enough to supply it so that much has to be purchased and Norwich gets a big trade from there.

ing some recommendations, which were acted upon. These were regarding minor matters about the institution. Adjournment was then taken for dinner. The rest of the day was spent in the kitchen, as his guests were Messrs. Greeley, Pinney, and Burr of the board of trustees. The administration building is not yet ready for occupancy, although it will be within a short time. The furnishings are yet to be installed and are expected very soon.
